(1) Non-IFRS measures: Adjusted EBITDA does not have a standardized meaning under IFRS, and therefore may not be comparable to similar measures presented by other issuers. We define Adjusted EBITDA attributed to shareholders as net income or loss excluding severance and acquisition costs, interest expense and finance costs, foreign exchange gains and losses, current and deferred income taxes, depreciation and amortization, stock-based compensation, fair value gains and losses on investments, and other expenses. We believe Adjusted EBITDA is a useful measure as it provides important and relevant information to our management about our operating and financial performance. Adjusted EBITDA also enables our management to assess our ability to generate operating cash flow to fund future working capital needs, and to support future growth. Excluding these items does not imply that they are non-recurring or not useful to investors. Investors should be cautioned that Adjusted EBITDA attributable to shareholders should not be construed as an alternative to net income (loss) or cash flows as determined under IFRS. Refer to section "Reconciliation of Net Loss to Adjusted EBITDA" below of this MD&A for a reconciliation of this measure to the most directly comparable measure under IFRS.

(2) Non-IFRS measures: Gross profit and gross profit percentage do not have a standardized meaning under IFRS, and therefore may not be comparable to similar measures presented by other issuers. We define gross profit as revenue, excluding ancillary revenues, less cost of software and services and software licensing fees. Cost of software and services include direct costs of community managers, client accounting staff and accounting software, excluding client administration and other administrative applications. We define gross profit percentage as gross

profit calculated as a percentage of revenues, excluding ancillary revenues. Gross profit and gross profit percentage should not be construed as an alternative for revenue or net loss in accordance with IFRS. We believe that gross profit and gross profit percentage are meaningful metrics in assessing our financial performance and operational efficiency.

	<u>Three Months Ended</u>		<u>Nine Months Ended</u>	
	<u>September 30, 2025</u>	<u>September 30, 2024</u>	<u>September 30, 2025</u>	<u>September 30, 2024</u>
Software and service fees	\$ 6,873,403	\$ 6,686,749	\$ 19,816,123	\$ 16,004,881
Transactional revenues	1,428,396	1,646,888	4,566,292	3,825,978
Total revenue	\$ 8,301,799	\$ 8,333,637	\$ 24,382,415	\$ 19,830,859

- (1) Software and service fees are considered to be recurring revenues as they represent ongoing contracts to manage condominium, rental and commercial properties. This includes Tribe Home platform used by managed communities.
- (2) Transactional revenues consist of fees charged to clients regarding one-time incremental services, Tribe marketplace/partnerships, data-driven project management services, and Tribe Home Pro software sales.
- (3) The Company reassessed certain software and service fees recognized during the three and nine months ended September 30, 2024, and concluded that it was transactional revenues. Therefore, the Company has revised the presentation from software and service fees to transactional revenues. The effect of the change was a reduction of software and service fees from \$7,119,492 to \$6,686,749 and an increase of transactional revenues from \$1,214,145 to \$1,646,888 for the three months ended September 30, 2024, and a reduction of software and service fees from \$16,531,315 to \$16,004,881 and an increase of transactional revenues from \$3,299,544 to \$3,825,978 for the nine months ended September, 2024. No other amounts were affected.

During the three months ended September 30, 2025, we generated total revenue of \$8,301,799, an decrease of 0.4% over the same period in 2024. This was partially offset by a 2.8% increase in software and service fees due to the acquisition of Ace Agencies.

During the nine months ended September 30, 2025, we generated total revenue of \$24,382,415, an increase of 23% over the same period in 2024. The increase in revenue was primarily due to a 23.8% increase in software and service fees as a result of the acquisition of DMSI and Ace Agencies. Furthermore, there was a 19.3% increase in transactional revenues due to the acquisition of DMSI and its associated project management revenue.

Consolidated gross profit and gross profit percentage

Gross profit increased by \$687,286 and gross profit percentage increased to 47.1% for the three months ended September 30, 2025, from 38.8%, compared to the same period in 2024. The increase in gross profit was due to increased revenues from the acquisition of DMSI and Ace Agencies, as well as decreased salaries from efficiency efforts. As part of our efficiency efforts, we expect to continue to reduce salaries in the fourth quarter of 2025.

Gross profit increased by \$2,930,362 and gross profit percentage increased to 44.2% for the nine months ended September 30, 2025 from 39.7% compared to the same period in 2024. Should the Company be unsuccessful in obtaining the waiver, our lender could exercise its rights under the loan facility documentation including, but not limited to, the acceleration of maturity of such indebtedness and the realization of security provided to the lenders. Any such result could have a material adverse effect on our business, financial condition, and results of operations. See headings "*Forward-Looking Information*" and "*Risks and Uncertainties*".

Our financial assets and liabilities are classified as follows:

	<u>September 30, 2025</u>	<u>December 31, 2024</u>
Financial assets:		
<i>Fair value through profit and loss</i>		
Cash	\$ 3,183,319	\$ 1,819,520

Notes payable	1,774,872	3,938,718

We use our cash and receivables to support our current planned operations and to settle our accounts payable, short-term debt and demand loan, all of which were incurred in the normal course of business. Our previous notes payable were issued in connection with the DMSI and Meritus acquisitions and was used to finance the transactions. Our investments consist of shares of a publicly traded company on the Toronto Stock Exchange. We plan to liquidate these shares in the future.

Our financial instruments expose us to certain financial risks, including credit risk, interest rate risk, foreign currency risk and liquidity risk.

Credit risk

Credit risk arises from the potential that a counterparty will fail to perform its obligations. We have a significant number of customers which minimizes concentration of credit risk. We are exposed to credit risk from customers. In order to reduce our credit risk, we deal only with financially sound counterparties and, accordingly, do not anticipate loss for non-performance. An allowance for doubtful accounts is established based upon factors surrounding the credit risk of specific accounts, historical trends and other information. Our cash is also exposed to credit risk. Cash is held with a major financial institution, consequently, the credit risk is assessed as low.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Our interest rates on our short-term debt, notes payable and demand loan are fixed. Management monitors our interest rates compared to market rates on a regular basis. We do not use derivative instruments to reduce our exposure to interest rate risk. Accordingly, interest rate risk is assessed as low.

Currency risk

Currency risk is the risk that our net income (loss) will vary from fluctuations of foreign exchange rates and the degree of volatility of these rates. We have not entered into any forward currency contracts or other financial derivatives to hedge foreign exchange risk. We are exposed to limited foreign currency transactions and have assessed the currency risk as low.

Liquidity risk

Our objective is to have sufficient liquidity to meet our liabilities when they become due. We monitor our cash balances and cash flows generated from operations to meet our requirements. As at September 30, 2025, the most significant financial liabilities are our accounts payables and accrued liabilities, and notes payable. As at September 30, 2025, we assessed our liquidity risk as moderate.

RISKS AND UNCERTAINTIES

We are subject to a number of risks and uncertainties that may significantly impact our financial condition and future financial performance. Prospective investors should carefully consider the risks described in our most recent annual information form, available for review under our profile on the SEDAR+ website at <http://www.sedarplus.ca>, before making an investment decision.

CONTINGENCIES

We are from time to time involved in legal proceedings of a nature considered normal to our business. We believe that none of the litigation in which we are currently involved, individually or in the aggregate, are material to our consolidated financial condition or results of operations.
