COMPANY OVERVIEW

On March 15, 2021, the Company (then "Cherry Street Capital Inc.", a Canadian capital pool company previously listed on the TSX Venture Exchange (the "Exchange") under the symbol "CHSC.P") ("Cherry Street") acquired all of the outstanding shares of Tribe Property Technologies Inc. ("Tribe Private") by way of a three-cornered amalgamation, pursuant to which a wholly-owned subsidiary of Cherry Street amalgamated with Tribe Private, with Tribe Private surviving as a wholly-owned subsidiary of Cherry Street under the name "Tribe Property Solutions Inc." (the "Qualifying Transaction"). On March 15, 2021, Cherry Street changed its name to "Tribe Property Technologies Inc." and on March 25, 2021, the Company was listed on the Exchange under the symbol "TRBE". This transaction constituted Cherry Street's qualifying transaction for the purposes of the Exchange's policies and a reverse acquisition (the "RTO") for the purposes of Canadian securities laws. Tribe Private has been identified as the accounting acquirer, and accordingly, the Company is considered to be a continuation of Tribe Private, and the net assets of Cherry Street at the date of the reverse acquisition are deemed to have been acquired by Tribe Private. This MD&A includes the results of operations of Cherry Street from March 15, 2021. The comparative figures are those of Tribe Private prior to the reverse acquisition.

We were incorporated under the *Business Corporations Act* (Ontario) on June 5, 2017 under the name "Cherry Street Capital Inc.". In connection with the Qualifying Transaction, we changed our name to "Tribe Property Technologies Inc." on March 15, 2021. Our head office is located at Suite 419-1155 West Pender Street, Vancouver, BC, V6E 2P4 and our registered office is located at Suite 2100-885 Scotia Plaza, 40 King Street West, Toronto, Ontario, M5H 3C2.

Our principal business activity is offering technology-enabled property management services to meet the needs of developers, condominium and residential communities, and owners and residents. The services provided via our technology platform are focused on improving the living experience of the residents within each community, with a key focus on communication, information, education and protection. Through our technology platform, we provide on-demand access to important records and documents, simple communication tools, online payment options, bookable amenities and a ticketing system for residents to notify their developer or management of issues, warranty concerns and deficiencies.

The majority of our business is generated from software and service revenues which our community-living technology platform contributes to. Our deficiency management software for real estate developers and rental management software for landlords contribute to our software licensing fees which make up a lesser part of our business.

Our community-living technology platform provides strata councils and residents with on-demand access to important records and documents, simple communication tools, online payment options and bookable amenities. Our community-living platform strengthens communications, empowers residents and builds community. It offers high value for community residents with features that allow councils, boards and homeowners' associations to protect their real estate investment through improved communication, greater collaboration and self-service tools for residents. Examples include secure and easy communications tools with easy-to-find records, on-demand access to shared community documents, amenity booking and a help desk ticketing system.

Our deficiency management software for real estate developers provides developers and residents with a ticketing system for residents to notify their developer or management of issues, warranty concerns or deficiencies. This deficiency management software is used by property developers to organize and streamline post-construction workflow from pre-inspection and owner walk-throughs to post-occupancy and beyond. Developers can digitally track and manage home issues, while owners can access digital homeowner manuals and submit warranty issues upon move-in, directly to customer care teams.

Our rental management software for landlords provides landlords and tenants with an online tool designed to streamline landlord tasks. The tool eliminates tedious tasks and streamlines every step in the rental process, allowing users to take advantage of listing websites, online rental applications, tenant vetting and onboarding, digital lease agreements, cashflow management, online rent collection and financial reporting. This software is available to owner-investors within our end-to-end community solution.

If on the first anniversary of the closing of the Gateway Acquisition (December 31, 2021), revenues of Gateway and RDC are less than \$9,500,000, then the purchase price shall be reduced by the difference between the revenue generated by Gateway and RDC and \$9,500,000 on a dollar-for-dollar basis for the first \$500,000 of difference and on the basis of a \$0.50 reduction for each \$1.00 difference over \$500,000, to a maximum reduction of \$750,000 (the "Second Gateway Revenue Adjustment" and together with the First Gateway Revenue Adjustment, the "Gateway Revenue Adjustments"). Reverse takeover transaction

On March 15, 2021, Cherry Street acquired all of the outstanding shares of Tribe Private by way of a three-cornered amalgamation and changed its name to “Tribe Property Technologies Inc.”. The transaction was completed by way of a share exchange between the shareholders of Cherry Street and the shareholders of Tribe Private. In exchange for 100% of the issued and outstanding shares of Tribe Private, the shareholders of Tribe Private received an aggregate of 15,529,254 common shares of the Company. Stock options of Cherry Street and Tribe Private were exchanged for equivalent stock options of the Company.

The transaction resulted in Tribe Private obtaining control of the combined entity by obtaining control of governance and management decision-making processes, and the resulting authority to govern the financial and operating policies of the combined entity.

The transaction constituted a reverse acquisition of Cherry Street by Tribe Private and has been accounted for as a reverse acquisition transaction in accordance with IFRS 2, Share-based payments. The Company did not meet the definition of a business in accordance with IFRS 3, Business combinations, as such, the transaction does not constitute a business combination.

For accounting purposes, Tribe Private is treated as the accounting parent (legal subsidiary) and Cherry Street as the accounting subsidiary (legal parent). The fair value of the consideration paid by Tribe Private less the fair value of net assets acquired of Cherry Street constitutes listing expense and has been recorded in the statement of loss and comprehensive loss.

The RTO was measured at the fair value of the shares that Tribe Private would have had to issue to the shareholders of Cherry Street, being 361,000 common shares, to give the shareholders of Cherry Street the same percentage of equity interest in the combined entity that results from the reverse acquisition had it taken the legal form of Tribe Private acquiring Cherry Street.

In connection with the completion of the RTO, Tribe Private completed the previously announced Subscription Receipt Financing and Non-Brokered Subscription Receipt Financing. In total, Tribe Private issued 2,665,984 subscription receipts at a price of \$5.00 per receipt for aggregate gross proceeds of \$13,329,920 under the financings. Immediately prior to the completion of the RTO, each receipt was automatically converted into one common share of Tribe Private and the receipt shares were exchanged for common shares of the Company on a one-for-one basis. The proceeds from the financings were released from escrow, following the Company’s receipt of all applicable regulatory approvals and the completion of the Qualifying Transaction. Following the completion of the RTO, the Company had 15,890,254 common shares issued and outstanding.

Board of directors and management

Following completion of the RTO, our board of directors has been reconstituted to consist of Joseph Nakhla, Raymond Choy, Charmaine Crooks, Andrew Kiguel and Michael Willis. Our management has also been reconstituted to consist of Joseph Nakhla as Chief Executive Officer, Jim Defer as Chief Financial Officer and John Tims as Corporate Secretary.

COVID-19 Impact and Measures

On March 11, 2020, the World Health Organization characterized the outbreak of a strain of the novel coronavirus (“COVID-19”) as a pandemic which has resulted in a series of public health and emergency measures that have been

put in place to combat the spread of the virus. At the onset of the pandemic, we created a COVID-19 task force to implement preventative safety measures to mitigate the risk of COVID-19 transmission while allowing us to continue to operate throughout the pandemic. These measures allowed us to continue to operate safely and included, but are not limited to:

- Enhanced hygiene procedures, including increased cleaning frequency at all facilities.
- Social distancing measures put in place for the health and safety of employees, including physical safety barriers and significantly reduced capacity of all office and common areas.
- Mandatory non-contact COVID-19 screening, including temperature checks, for all employees and visitors entering any facility.
- Mandatory work-from-home for all employees not required to be physically present on site, including the development of work-from-home policies to support remote working for all eligible employees.

As of the date of this MD&A, COVID-19 continues to impact businesses worldwide. Measures taken to slow the spread of COVID-19 across Canada have allowed for a phased reopening and an increase in associated business activity. With mandates and/or recommendations from the federal, provincial and local authorities, we continue to adapt to the impacts of COVID-19 with the health and safety of our employees, customers and communities as the highest priority.

While the situation is changing rapidly, the pandemic will likely continue to result in changes to governmental regulations and ongoing economic uncertainty. The extent to which COVID-19 continues to affect our business will depend on future events which are highly uncertain and cannot be predicted, including the geographic spread and duration of the pandemic, actions taken by governmental authorities in response to the pandemic, and the impacts on regional markets, our customers, suppliers and contracts. As a result, no assurance can be given as of the date of this MD&A as to the potential impact that COVID-19 may have on our business, results of operations, cash flows and financial condition. We are taking measures to mitigate the effects of COVID-19 and to sustain the disruption caused by the pandemic.

⁽²⁾ Non-GAAP measures: Gross profit and gross profit percentage do not have a standardized meaning under IFRS, and therefore may not be comparable to similar measures presented by other issuers. We define gross profit as revenue less cost of software and services and software licensing fees, and gross profit percentage as gross profit calculated as a percentage of revenue. Gross profit and gross profit percentage should not be construed as an

alternative for revenue or net loss in accordance with IFRS. We believe that gross profit and gross profit percentage are meaningful metrics in assessing our financial performance and operational efficiency.

- (3) Non-GAAP measures: Adjusted EBITDA is also not a measure recognized in accordance with IFRS and does not have a prescribed or standardized meaning by IFRS. We define Adjusted EBITDA attributed to shareholders as net income or loss excluding the impact of listing expenses associated with the RTO, interest expense and finance costs, foreign exchange gains and losses, current and deferred income taxes, depreciation and amortization, stock-based compensation, fair value gains and losses on investments, and other expenses. It should be noted that Adjusted EBITDA is not defined under IFRS and may not be comparable to similar measures used by other entities. We believe Adjusted EBITDA is a useful measure as it provides important and relevant information to our management about our operating and financial performance. Adjusted EBITDA also enables our management to assess our ability to generate operating cash flow to fund future working capital needs, and to support future growth. Excluding these items does not imply that they are non-recurring or not useful to investors. Investors should be cautioned that Adjusted EBITDA attributable to shareholders should not be construed as an alternative to net income (loss) or cash flows as determined under IFRS.

During the three months ended September 30, 2021, we generated total revenue of \$4,085,215, an increase of 259% over the same period of 2020. The increase in software and services revenue was primarily due to revenue generated via the integration of Gateway of approximately \$2.6 million for the three months ended September 30, 2021. The increase in software licensing fees was primarily due to an increase in revenue associated with the completion of a number of real estate developments resulting in our software being used for deficiency management and post-occupancy support.

During the nine months ended September 30, 2021, we generated total revenue of \$11,842,160, an increase of 252% over the same period of 2020. The increase in software and services revenue was primarily due to revenue generated via the integration of Gateway of approximately \$7.6 million for the nine months ended September 30, 2021. The increase in software licensing fees was attributable to the same reasons associated with the increase during the three months ended September 30, 2021.

Gross profit and gross profit percentage

Gross profit increased by \$1,566,726 and gross profit percentage increased to 48.9% for the three months ended September 30, 2021 from 37.7% for the same period of 2020. The increase in gross profit was a result of the addition of service contracts associated with acquisitions and organic growth, and the increase in gross profit percentage was driven by economies of scale and digitization of a larger national footprint. For the nine months ended September 30, 2021, gross profit increased by \$4,441,425 and gross profit percentage increased to 48.5% from 38.8% for the same period of 2020, attributable to the same reasons associated with the increase during the three months ended September 30, 2021.

We have built an integration team and expanded our product and technology team to accommodate revenue growth. We have added a team of professionals focused on mergers and acquisitions and business development that is capable of structuring different types of asset-based and share-based deals. With the successful amalgamation of Gateway into Tribe, we have the tools and experience to expedite the full integration and digitization of future acquired businesses.

The increase in salaries and wages and office expenses during the three months ended September 30, 2021 was primarily due to the Gateway Acquisition which accounted for a significant increase in the number of employees and associated salaries. Additionally, there was an increase in staffing costs and office expenses required to support the service growth and to support the amalgamation and integration of Gateway into Tribe. We invested resources in the rebranding and marketing of our newly amalgamated company.

The increase in professional fees during the three months ended September 30, 2021 was due to regular recurring legal and accounting fees associated with us being a public company. The increase in investor relations and advertising and promotion during the three months ended September 30, 2021 was also associated with us going public in the first quarter of 2021.

SG&A increased by \$6,586,028 or 367% for the nine months ended September 30, 2021 compared to the same period in 2020.

The increase in investor relations and advertising and promotion during the nine months ended September 30, 2021 was also associated with us going public in the first quarter of 2021.

Depreciation and amortization

Depreciation and amortization for the three and nine months ended September 30, 2021 was \$311,286 and \$930,460, respectively, compared to depreciation and amortization for the three and nine months ended September 30, 2020 of \$97,380 and \$492,844, respectively. The increase in depreciation and amortization during the three and nine months ended September 30, 2021 was due to the acquisition of property and equipment, intangible assets, and leases associated with the Gateway Acquisition which occurred on December 31, 2020. The acquisition of these assets accounted for the higher depreciation and amortization for the three and nine months ended September 30, 2021.

Stock-based compensation

Stock-based compensation for the three and nine months ended September 30, 2021 was \$169,519 and \$673,226, respectively, compared to stock-based compensation of \$nil and \$646,481 for the three and nine months ended September 30, 2020. During the first quarter of 2021, we granted 620,540 stock options which were calculated at fair value using the Black-Scholes-Merton option pricing model. During the second quarter of 2020, we granted the equivalent of 394,530 post-consolidation stock options which vested immediately.

Listing expenses

Listing expenses were \$1,634,456 for the nine months ended September 30, 2021 compared to \$nil for the nine months ended September 30, 2020. The listing expenses related to the RTO that occurred during the first quarter of 2021.

The RTO was measured at the fair value of the shares that Tribe Private would have had to issue to the shareholders of Cherry Street, being 361,000 common shares, to give the shareholders of Cherry Street the same percentage of equity interest in the combined entity that results from the reverse acquisition had it taken the legal form of Tribe Private acquiring Cherry Street. This resulted in an excess consideration over net assets acquired of \$1,381,428. Additionally, there were professional fees of \$253,028 associated directly with the RTO which have been recorded as listing expenses.

Other expenses

Other expenses for the three and nine months ended September 30, 2021 were \$162,795 and \$609,767, respectively, compared to other expenses for the three and nine months ended September 30, 2020 of \$33,352 and \$114,415,

respectively. The increase is due to interest expense on the note payable as well as higher interest expense on the leases entered into as part of the Gateway Acquisition.

Net loss

Net loss for the three months ended September 30, 2021 was \$1,759,265 compared to \$268,118 for the three months ended September 30, 2020. The increase in net loss was primarily due to an increase in SG&A, depreciation and amortization and other expenses associated with the Gateway Acquisition, an increase in stock-based compensation expense, partially offset by higher revenue and gross profit.

Net loss for the nine months ended September 30, 2021 was \$6,563,226 compared to \$1,744,387 for the nine months ended September 30, 2020. The increase in net loss was primarily due to the listing expenses associated with the RTO, an increase in SG&A, depreciation and amortization and other expenses associated with the Gateway Acquisition, partially offset by higher revenue and gross profit.

Adjusted EBITDA

Adjusted EBITDA decreased \$977,380 for the three months ended September 30, 2021 and \$2,144,603 for the nine months ended September 30, 2021 compared to the same periods in 2020. The decrease in adjusted EBITDA was due to an increase in salaries and wages from the Gateway Acquisition which accounted for a significant increase in the number of employees and associated salaries, an increase in staffing costs and office expenses required to support the service growth and to support the amalgamation and integration of Gateway into Tribe, an increase in professional fees and investor relations associated with us going public, partially offset by an increase in revenue and gross profit.

Revenue outlook

We estimate that we will generate between \$15 and \$16 million in revenue in 2021. We generated approximately \$4.1 million in revenue for the three months ended September 30, 2021 and approximately \$11.8 million in revenue for the nine months ended September 30, 2021, which remains consistent with our revenue estimates for the year.

Variations in our revenue and total comprehensive loss for the periods above resulted primarily from the following factors:

- In the first quarter of 2020, our net loss decreased by \$62,631 to \$518,152, or a loss per share of \$0.04. The slight decrease in net loss was due to a decrease in SG&A.
- In the second quarter of 2020, our net loss increased by \$439,965 to \$958,117, or a loss per share of \$0.08. The increase in net loss was due to stock-based compensation expense of \$646,481 as we granted the equivalent of 394,530 post-consolidation stock options which vested immediately. This was partially offset by an increase in revenue.
- In the third quarter of 2020, our net loss decreased by \$689,994 to \$268,123, or a loss per share of \$0.02. The decrease in net loss was due to the non-recurring stock-based compensation expense of \$646,481 recognized in the prior quarter.

- In the fourth quarter of 2020, our net loss increased by \$3,407,048 to \$3,675,171, or a loss per share of \$0.30. The increase in net loss was due to consulting fees of \$2,669,653 in connection with the pursuit of a public listing. Additionally, there was an increase in professional fees in connection with the Gateway Acquisition.
- In the first quarter of 2021, our net loss decreased by \$515,739 to \$3,159,432, or a loss per share of \$0.24. The decrease in net loss was due to non-recurring consulting fees of \$2,669,653 in connection with the pursuit of a public listing recognized in the prior quarter, higher revenue and gross profit generated by the Gateway Acquisition, partially offset by listing expenses of \$1,634,456 associated with the RTO, higher stock-based compensation expense of \$339,617, and higher SG&A expenses associated with the Gateway Acquisition.
- In the second quarter of 2021, our net loss decreased by \$1,514,903 to \$1,644,529, or a loss per share of \$0.10. The decrease in net loss was due to non-recurring listing expenses of \$1,634,456 associated with the RTO recognized in the prior quarter, partially offset by an increase in SG&A expenses required to support the amalgamation and integration of Gateway into Tribe.
- In the third quarter of 2021, our net loss increased by \$114,736 to \$1,759,265, or a loss per share of \$0.11. The slight increase in net loss was due to an increase in SG&A expenses required to support the amalgamation and integration of Gateway into Tribe, which was completed on July 31, 2021.

Our note payable was issued in connection with the Gateway Acquisition and was used to finance the transaction. Our investments consist of shares of a publicly traded company on the Toronto Stock Exchange. We plan to liquidate these shares in the near future.

Our financial instruments expose us to certain financial risks, including credit risk, interest rate risk, foreign currency risk and liquidity risk.

Credit risk

Credit risk arises from the potential that a counterparty will fail to perform its obligations. We have a significant number of customers which minimizes concentration of credit risk. We are exposed to credit risk from customers. In order to reduce our credit risk, we deal only with financially sound counterparties and, accordingly, do not anticipate loss for non-performance. An allowance for doubtful accounts is established based upon factors surrounding the credit risk of specific accounts, historical trends and other information. Our cash is also exposed to credit risk. Cash is held with a major financial institution, consequently, the credit risk is assessed as low.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Our interest rates on our short-term debt, note payable and demand loan are fixed. Management monitors our interest rates compared to market rates on a regular basis. We do not use derivative instruments to reduce our exposure to interest rate risk. Accordingly, interest rate risk is assessed as low.

Currency risk

Currency risk is the risk that our net income (loss) will vary from fluctuations of foreign exchange rates and the degree of volatility of these rates. We have not entered into any forward currency contracts or other financial derivatives to hedge foreign exchange risk. We are exposed to limited foreign currency transactions and have assessed the currency risk as low.

Liquidity risk

Our objective is to have sufficient liquidity to meet our liabilities when they become due. We monitor our cash balances and cash flows generated from operations to meet our requirements. As at September 30, 2021, the most significant financial liabilities are our accounts payables and accrued liabilities, short-term debt, demand loan, and note payable. As at September 30, 2021, we assessed our liquidity risk as moderate.

RISKS AND UNCERTAINTIES

We are subject to a number of risks and uncertainties that may significantly impact our financial condition and future financial performance. Prospective investors should carefully consider the risks described in our filing statement dated March 12, 2021 and our most recent annual information form dated July 20, 2021, available for review under our profile on the SEDAR website at www.sedar.com, before making an investment decision.

CONTINGENCIES

We are from time to time involved in legal proceedings of a nature considered normal to our business. We believe that none of the litigation in which we are currently involved, individually or in the aggregate, are material to our consolidated financial condition or results of operations.

OUTSTANDING SHARE DATA
